

**AMOR NATURAE NIGHTTIME MOISTURIZER**

Skin needs a particular form of Vitamin C in order to convert amino acids into proteins that are used to create collagen. Organic Rosehip Seed oil has the highest natural content of the proper molecular form of Vitamin C. The layer of the skin that is responsible for fine

lines and wrinkles needs collagen to remain healthy. AMOR NATURAE combines organic oils that replenish Vitamins A, C & E along with essential fatty acids & is an excellent natural night time moisturizer. You will FALL IN LOVE with AMOR NATURAE!!

2 oz. travel pump 4 oz. drop refill 16 oz. handpump

**OSCULATUS NATURA LIPCARE**

Rich in Vitamin C and antioxidants, our daily lipcare is applied using a rollerball. Your lips will soften and feel luxurious. No beeswax or parabens; strictly the organic oils lips need to stay soft and healthy! 10 mL rollerball tube.

**NO MORE BUGS!**

Organic & natural, No More Bugs was created out of desperation so young children could safely play outside in the woods of Vermont

without being eaten alive by every manner of biting and stinging fly & insect. Used properly, NMB will keep you safe from mosquitoes, fire ants, biting flies, no-see-ums, chiggers, ticks, fleas. Used successfully from Costa Rica to Hawaii to Ontario to Thailand to India & across the U.S. Topical Pennyroyal has been used successfully since Roman times as a flea repellent. Citronella is a natural antiseptic, antibacterial and insecticide. Combining the strains of the two oils together, in my blend, creates a scent people find uplifting but bugs find unpleasant enough to leave you alone! Works on children, pets, horses, cows, goats, and even patio furniture to naturally keep bugs away! Reapply as needed. Simply spread a drop at a time over all exposed areas of skin. Reapply as needed. External Use Only.

**ALEXIA WACKS**

Alexia Rogue Wacks has been a practicing herbalist for over 35 years. She has a BFA, MAT, trained as a Polarity Therapist, is a retired middle school science teacher (AZ Science Teacher of the Year 2006), has worked as a research scientist in the U.S. and Thailand, and aspires towards a PhD and an ND. Personal experience and medical research convinced her that many of the health problems our culture experiences over time stem from commercial products and cultural practices and that raising children in clean, natural and holistically balanced environments can result in healthier adults. She began making her own natural products over 30 years ago by combining studies, research, and experiences from living around the world in order to help create greater health for her children, to share that health and to live in greater harmony with our Earth and each other.

## REJUVENATION DAYTIME MOISTURIZER

The synergistic blend of strains of oils in Rejuvenation offer a positive effect greater than the sum of the parts and covers the array of nutrients, vitamins, antioxidants and essential fatty acids skin, hair & nails need to be healthy and maintain a proper pH, as an external organ throughout the day. Properly formulated for therapeutic results, customers tell me they wish they had taken 'before' and 'after' photos because results are pleasing, often dramatic over time. Consistent daily use of Rejuvenation over time is key to creating healthy & positive change in your skin. Men, women, children & pets benefit.

**10 mL Spread The Love** lip care; rollerball tube application. Heal & prevent splits, cracks in Lips. Use regularly as needed.

## REJUVENATION Ingredients

### ORGANIC CHAMOMILE OIL

Steam distillation of Chamomile renders a beautiful, healing blue oil, rich in azulenes. The chemical constituents of azulene oil have been tested clinically & exhibit therapeutic responses with regards to anti-inflammatory properties on tissues, anti-histamine properties, significant antioxidant properties, tissue healing properties, tissue regenerative properties, and anti-bacterial properties. Chamomile oil is a tissue regenerative and has a long history (over 3,000 years) of helping skin conditions such as boils, acne, rashes, eczema, psoriasis and dermatitis. Chamomile oil is an anti-inflammatory when used on our skin. The oil from the strain used in **Rejuvenation** can result in the halting of the deterioration of skin cells that lead to fine lines and wrinkles. It stimulates cell regeneration, calms inflammation, soothes and heals blemishes. The therapeutic, synergistic and holistic benefits to your skin can be remarkable and very pleasing. Chamomile has positive and diverse therapeutic affects, will benefit any skin type and allow you to see sustained, positive changes in your skin over time.

### EXTRA VIRGIN ORGANIC COCONUT OIL

Extra virgin, organic coconut oil retains its natural antioxidant abilities to moisturize, feed and protect our skin while preventing destructive free radical formation in the layers of our skin. Rejuvenation adds needed nutrients and essential fatty acids to the surface of our skin in a way that our skin needs and recognizes. The ratio of coconut oil in Rejuvenation results in the outer layer of dead skin cells being removed while the underlying supportive and connective tissues become stronger because the needed nutrients penetrate the layers of our skin and are made available to the very structure of our cells and to the process of cell formation. Consistent use over time has been known to result in healing and restoring a youthful appearance to skin as needed nutrients are absorbed into the cell structure of the connective tissues that are our skin. As this connective tissue replenishes itself over time, your skin will feel softer, become suppler, wrinkles will become smoother and in some cases vanish. Sun damage to skin can lessen and has been known to alkalize and heal over time. Historic and cultural documentation supports the role coconut oil plays in natural skincare health. Damaged skin can heal, scars soften and improve optimally, and over time you can notice a clean and healthy glow!

### 100% ORGANIC EXTRA VIRGIN OLIVE OIL

Organic, cold-pressed Olive Oil is graded according to the purity derived through the least amount of processing. Less processing means a purer grade of oil and nutrients. The oil is extracted through low temperatures and pressure; this method preserves the chemical structure of the olive oil molecules. All nutrients and antioxidants that are naturally present in the olives are left intact. No pesticides or chemicals ever touched the fruit. Extra Virgin refers to the low acidity of the fruit. The lower the acidity of the fruit, the higher the quality of nutrients.

## Ingredients cont.

### 100% ORGANIC EXTRA VIRGIN OLIVE OIL

Olive Oil has many unique and beneficial properties including being able to be consumed and topically applied in crude form without refining. This means that when we apply it to our skin, we benefit directly from all the vitamins, essential fatty acids, antioxidants, and other nutrients that are left intact and available to our cells when the grade of oil is pure. The higher the grade, the more of these nutrients are present and of use to us.

The purity of the oils in Rejuvenation protect the cells of our bodies from damage caused by free radical oxidation. Our cell membranes contain certain fatty acids that are highly susceptible to free radical oxidation. This free radical oxidation process creates cell damage that produces lipid peroxides that can actually result in cellular death.

100% Extra Virgin Cold-Pressed Olive Oil contains polyphenols, Vitamin E, and other natural antioxidants that prevent free radical oxidation cell damage in order to preserve cellular integrity and beautiful, healthy skin. Combined in our ratio, your skin can gain health no matter its current condition. **For more complete information about ingredients & skin please visit:**

<http://www.livingblessed.com>

**REJUVENATION** is made with certified organic oils blended to replenish exact ratios of Vitamins A, E, essential fatty acids & antioxidants into the integumentary system (skin, hair, nails) while creating and maintaining a healthy pH with daily use over time.
